## Product data sheet

# RS550FE Fireman's Equipment Cabinet

### Typical use:

For the storage of 5 x Firefighter's equipment. This cabinet is widely used in the Offshore energy and marine sectors.

### Description:

These cabinets are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the door aperture. The roller shutter door enables access in confined spaces. The AS shutters used have proved to be extremely durable over a very long period of time.

The cabinet comes fitted with 1 x shelf and a hang rail for the storage of 5 x sets of Fireman's equipment without SCBA.

### Standard specification:

Dimensions (mm)

Height x width x depth: 1826 x 1034 x 750

Aperture: 1310H x 827W

Internal depth: 684

Weight Kg: 71Kg

### Material specification:

Colour: Red RAL3000

Material: Lloyds approved composites with UV stabilised gelcoat

Lettering: "Firemans Equipment" 75mm white

Roller Shutter: AS Fire Extreme Environment Roller Shutter

### Optional Extras:

Other RAL colours

Class 1 fire retardant composites

Manufactured in the UK
