Fire**Bird**[®]

Fire safety and lifesaving equipment storage

FireBird®

THE QUEEN'S AWARDS
FOR ENTERPRISE
INTERNATIONAL TRADE
2013

A fully integrated approach to design and manufacture has resulted in a range of GRP moulded products which are internationally respected and specified by many of the world's major oil and gas exploration and production companies.

Winner of the 2013 Queen's Award for Enterprise in International Trade, JoBird® is widely recognised as one of the world's leading suppliers of high performance storage solutions for fire, safety and lifesaving equipment.

Extreme operating conditions demand robust and high performing products to protect offshore and onshore firefighting and lifesaving equipment.

Unique in its field, JoBird® is proud to carry **Lloyd's Type Test Approval** and **ABS accreditation** for its FireBird® range of cabinets. These independent assessments of performance and quality of product provide further reassurance and peace of mind for our customers.

JB82

Fire Extinguisher Cabinets

Ref	Product Description	Dimensions (max) H x W x D mm	Door Aperture (max) H x W x D mm	Nominal Weight kg
JB81	1 x 6kg / 6L extinguisher	636 x 442 x 283	491 x 302	7.4

FireBird®

Features & Benefits

The FireBird® range has been developed and extended over many years allowing long term product performance to be measured and evaluated. In-use monitoring in extremes of heat and cold - from desert to arctic conditions - has provided the data on which a continuous performance improvement programme has been based.

The 21st century FireBird® range incorporates a number of enhancements which together offer an unrivalled specification for the user.

Benefits include:

- **Lloyd's Type Test and ABS approved** - International recognition of performance
- **IP56 type test approved** - providing better protection for your safety equipment
- **Quality Assured under BS EN ISO 9001:2008**
- Performance and quality tested under long term exposure conditions
- In-house, bespoke design capability
- A wide range of standard styles and sizes
- Availability in all international colours (special colours to order)

Technical Specification

All products in the FireBird® range are recognised by Lloyds Register under their Type Test Approval scheme and built on;

- Robust construction to satisfy demanding offshore specifications
- UV resistant colours
- Easy access door openings and handles
- Severe weather tested door seals
- High performance, corrosion-resistant door hinges

As all products are made-to-order a number of options provide bespoke solutions where required and include;

- Alternative internal configurations and layouts
- Flame retardant GRP resin construction
- Non-standard colour options
- Heating, insulation and ventilation
- Lettering

All FireBird® storage cabinets are available in a range of colours, shown overleaf. These printed versions act as a guide only and may vary slightly from the actual finish. Other colours are available to order - please contact us for details.

Our many internationally recognised customers include specifiers and users from many countries around the world.

End Users:

BP, Shell, Exxon Mobil, Chevron Texaco, Total, Petronas, Petrobras, PTTEP, Conoco Phillips, Husky Oil, ADCO, QP, SNEPCO, Saudi, Aramco, Hess, Saipem, Maersk, AIOC, Encana

Contractors:

KBR, CBI, MWK, AMEC, Flour, Parsons, Foster Wheeler
